## LIFE ASSURANCE.

THE PREMIUMS are so moderate that, at usual ages for assuring, £1200 or thereby may be secured from the first for the yearly payment which would generally assure (with profits) £1000 only—the £200 being equivalent to an immediate and certain Bonus. The WHOLE SURPLUS goes to the Policy-holders, on a system at once safe and equitable—the immediate assurance for the premium payable being exceptionally large, the Surplus is reserved exclusively for the policies of those Members who prove to be good lives.

The SURPLUS at last Valuation (1901) was **£1,581,000.**

**More than Sixty per cent.** of the Members who died during the last Septennial period were entitled to **Bonuses** which, **notwithstanding that the Premiums do not as a rule exceed the non-profit rates of other Offices,** were, on the average, equal to **an addition of over 50 per cent.** to the Policies which participated.

**PREMIUMS FOR £100 PAYABLE AT DEATH** (with right to share in Surplus).

**The Whole Surplus** arising under this Class is to belong exclusively to the Policy-holders in it. **Bonuses** are to be allotted on the **compound system** in the form of annual percentage additions to the sum assured and previous Bonus. An Interim Bonus of £1, 10s. per cent. per annum is payable in event of death before first division, as at 31st December 1908.

# PICKED PENS
## FOR
# PARTICULAR PEOPLE.

**NO** pen is better known throughout the world than the **WAVERLEY PEN,** 6d. and 1/- per box, 3/6 per gross. It glides sweetly over the paper. One of our most influential newspapers has in truth declared that the Waverley Pen is a treasure. **PERHAPS** the next most popular pen is the J Pen, and this is a specimen of **MACNIVEN & CAMERON'S J PEN,** 6d. and 1/- per box, 2/- per gross (black). The point will not be found harsh when the pen is first used, as is too often the case with J pens of various makers. **IF** the writer writes on the side of the pen, **THE LANTERN PEN,** 6d. and 1/- per box, 3/6 per gross, is the pen to be used, and satisfaction will be the result. The Lantern Pen is really a steel quill pen. **NEXT** we present the Castle Pen, a shoulder pen of a pattern greatly favoured by many writers. It is equally suitable for correspondence or for ledger work. The **CASTLE PEN,** 6d. and 1/- per box, 3/- per gross, is made of steel, which is gilt with the finest gold in order to resist the action of the ink. **PENS** made of steel necessarily require more time to wear themselves into the particular manner in which the person holds his pen, and by this time the corrosive action of the ink may have finished off the pen. After study and experiment we have brought out the **SUAVITER PEN,** 6d. and 1/- per box, 3/- per gross — a pen of special non-corrodible metal which will be found to be the most quickly adaptable pen to the character of the writer's hand, while at the same time durable and flexible.

All Macniven & Cameron's Pens, which are procurable at the Stationers, are made of the finest metals, and every pen is separately examined by experienced hands, and any found defective are discarded.

# PREFATORY NOTE.

The Proprietors of the 'Edinburgh and Leith Post-Office Directory' beg to express their thanks to their numerous subscribers, and to the public at large, for the liberal patronage they have bestowed on this publication during the long period of ninety-eight years.

It has ever been the desire of the Publishers that the information contained in the annual issue of the book should keep pace with the progress and requirements of the community; and every effort has been made to render the work as accurate and complete as possible: they do not, however, hold themselves responsible for any error or omission.

A useful and complete list of Telephone Call Offices in the City and Suburbs is given. See page 426.

The Map, from actual survey by W. & A. K. Johnston Limited, Edinburgh, is a most accurate and descriptive plan of the City, and comprises the Wards and Parliamentary Boundaries.

To the list of the Commissioners of the Peace for the County of the City and limits, under the heading of 'Public Departments,' is now added the year of the appointment to office of each J.P.

The Proprietors are thankful to the Members and Heads of the City Institutions for their kind assistance in supplying much of the useful information.

Notwithstanding the amalgamation of Portobello and other outlying districts with Edinburgh, these places are still treated for all POSTAL PURPOSES as formerly, and are not included in the ordinary deliveries from the General Post Office.

*** All communications on Directory business addressed to the Editor, Post Office Directory Office, 15 St. James' Square, will receive careful and prompt attention.

EXPLANATION.—In the Left-hand Table are the years of the Century, and above each is the Dominical Letter corresponding with that Year. Then, opposite to the Month, at the foot of the Right-hand Table, will be found a corresponding Letter, over which are placed the Days of the Month and Week for that Month (distinguishing the Sundays by a different type). Each Blank Space in the Left-hand Table shows the Year following to be Leap Year; and as every Leap Year has two Dominical Letters, the Letter above the *Blank Space* must be used for January and February in every Leap Year; and for the other months, use the Letters belonging to the respective Years.

By transposing the Dominical Letters, this Calendar would answer for any Century.
